

HR HeadCount Analysis Using Power BI

Measures and Calculations using DAX:

1. Calculating female employee percentage:

```
Female% = DIVIDE([Total_Female_Count],[Total_count])
```

2. Calculating male employee percentage:

```
Male% = DIVIDE([Total_Male_Count],[Total_count])
```

3. Calculating total employee count:

```
Total_count = COUNTA('Employee Data'[Gender])
```

4. Calculating total female employee count:

```
Total_Female_Count = COUNTAX(FILTER('Employee Data','Employee  
Data'[Gender]="Female"),'Employee Data'[EEID])
```

5. Calculating total male employee count:

```
Total_Male_Count = COUNTAX(FILTER('Employee Data','Employee  
Data'[Gender]="Male"),'Employee Data'[EEID])
```
